1. Review of the draft report, “Evaluation of Chloropicrin as a Toxic Air Contaminant,” November 2009.

The Panel will review a draft report prepared by the Department of Pesticide Regulation (DPR) proposing to identify and list chloropicrin as a toxic air contaminant. Chloropicrin is a fumigant pesticide used to treat pests in agricultural fields prior to planting. Chloropicrin has a low odor threshold and in addition to its use as a pesticidal active ingredient, it is also added to other products as a warning agent. After completing its review, the Panel will discuss its findings to be submitted to the DPR Director.

INFORMATION ABOUT THE SCIENTIFIC REVIEW PANEL

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the Air Resources Board (ARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports and underlying scientific data on which the reports are based, which are prepared by the ARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments.

The Panel welcomes written comments or submissions from all parties regarding a report, but does not accept oral comments from the public at its meetings. Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below), preferably, no later than two weeks prior to a scheduled meeting.

Transcripts to previously held Panel meetings and other information about the Panel can be found through the ARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.
